STUDENTS SATISFACTION SURVEY Academic Session 2019-2020

Students are important stake holders and their feedback plays a significant role in the revision of the curriculum. Feedback from students about their experience in higher education was a rarity. With the expansion of the university sector, the concerns with quality and the growing ‘consumerism’ of higher education there has been a significant growth and sophistication in, process designed to collect views from students regarding the curriculum and about the teachers. For the academic year, **2019 to 2020** many students voluntarily gave their feedback about the curriculum and about the teachers.
