Best Practices

1. Wild life Week

Wildlife Week was conceptualized in 1952 with the overall goal of raising awareness to serve the long-term goal of safeguarding the lives of wildlife through critical action. In addition, the Indian Government established an Indian Board of Wild Life which works to improve awareness towards the preservation of wildlife. Throughout Wildlife Week, experts conduct hands-on workshops to bring the more complex aspects of wildlife conservation within the reach and understanding of all age groups. This year, WWF's landscapes celebrated Wildlife Week through numerous awareness building activities.

Objectives of Celebrating Wild Life Week

- To focus the people's attention towards the importance of conservation of the wild life.
- To implement more services to preserve the wild life.
- To make people more aware of the conservation and protection of the wild life.
- To discuss all the issues related to the preservation of the wild life.

Context

Like forests, wildlife is also a national resource, which not only helps in maintaining the ecological balance but is also beneficial from economic, recreational and aesthetic points of view. There was a time when human interference was minimum the number of wild animals was quite high and there was no problem of their protection or conservation. But, with the expansion of agriculture, settlement, industrial and other developmental activities and mainly due to greed of man, the number of wild animals gradually became lesser and lesser. With the result that several species of animals have become extinct and several, others are on the verge of being so.

Deforestation is also one of the main reasons for the loss of wildlife. Mass killings of wild animals for their meat, bones, fur, teeth, hair, skin, etc., are going on throughout the world. Therefore, the need for wildlife conservation has now become a necessity.

Population growth, expansion of agriculture and livestock raising building of cities and roads, and pollution are among the many pressures on the natural habitat of wildlife. Along with illegal hunting, habitat reduction and its degradation has threatened the bio-diversity of the regions where these are rampant.

Preservation of wildlife does not mean a blanket protection to all faunal and floral species; rather, it implies a proper, judicious control over the multiplication of plants and animals, which interact together to provide a proper environment to man whose very existence is in peril today.

Due to the irrational use of natural and biotic resources of the earth in the past, most of the wildlife has been destroyed beyond retrieval. It is our urgent duty to protect the natural splendor of ecosystems and to evolve a system of co-existence with every living creature upon the earth.

Although most countries of the world are very particular regarding conservation of wildlife, the number of wild animals is reducing day by day. World Wild Life Fund is the international agency, which is doing commendable work in promoting the protection of wildlife. There are national agencies also engaged in the conservation of wildlife.

2. Best Practice: Construction of Four Public Toilets at Morchapur, Seloo, Wardha

- **Introduction:**

India is an agricultural country and agriculture is a backbone of Indian economy. More than 60% people depend on agriculture as a livelihood. Hence real India lives in villages so unless villages not develop with basic things, India may not progress in future. Therefore, Prime Minister declares “Clean India Mission” in 2014. Cleanliness is a key to success. If India wants to shine at international level, it is mandatory to make an impressive image of our country which will create a global impact.

The current scenario of villages of our country in context to cleanliness is really drastic. While talking about Maharashtra State only, 1 crore 25 lacs 44 thousands 797 families are living at rural level. Lot of schemes, missions and efforts of government have created better awareness as result of which 59 percent of rural families have adopted toilets. It is important to change the mentality of people because many villages never use toilets even if it is constructed at individual level. Hence, toilet unit of cleanliness is a need of hour.

- **Objective:**

Construction of Four Public Toilets at Morchapur, Seloo, Wardha

- **Context:**

- ✓ To protect and conserve environment.
- ✓ To Maintain Cleanliness and Hygiene.
- ✓ To improve health benefits.
- ✓ To support villages and Government policies.

- **Selection of Problem:**

In above context it was decided by the members of IQAC to construct four toilets (Two for Ladies and Two for Gents) at Morchapur, Seloo Wardha which is about 28 km away from College.

- **About Morchapur**

Total Population 767

Male 412

Female 355

Below 6 year children: 67

Ramna and Morchapur come under the roof of one grampanchayat. It's building is constructed at Ramna village. It has seven members body headed by Mrs. Shilatai S. Kaumre as a

Sarpanch and Ramkrishna Umate as vice sarpanch. Zilha Parishad Wardha started primary school up to 4th class. More than 21 families do not have their own toilets yet.

Practice:

Under recognizing social responsibility, our college has started initiative of construction of 04 public toilets at rural area which is considered to be milestone to achieve at academic level through the support of students and faculties. Students collectively initiated the task with budget calculation, construction costs and permissions etc. Donors were searched and few came forward with the donations of toilets sheets, cement bags, sand and bricks etc. Maximum fund were raised through donation which is given by helping hands. Name of donors are given below:

1. Ramkrushna Umate
2. Sanjay Nagpure
3. Dr. R.G. Bhoyar
4. Ram Ambhore

Monitoring the construction work is done by Prof. Manish Bhoyar, Head of Social Work department along with students of MSW who were the key workers make the difficult task possible.

• **Success of Evidence:**

More than 119 people of the village are using these toilets presently.
